COST SHARE INFORMATION FOR PIs

1. S&T will not provide or support any matching/cost share for proposals where it is not explicitly required by the RFP.

2. In cases where the RFP explicitly requires cost share, the following process will be followed:
   a. First, the time of the PIs will be used as match, assuming that such time is available and not already committed
   b. Next any F&A returned to the PIs, Department(s), and Dean(s) will need to be surrendered
   c. Next the VCR will provide the remaining cost share. If needed the VCR may negotiate with the Chair(s), Dean(s), and Provost to identify the necessary funds.

3. It is possible that for some proposals some of the match will come from industrial partners. Such match will count towards the VCR’s contribution to the cost share.

4. If the proposal has subcontractors, the subcontractors must commit in writing to their share of the cost share.
   a. In cases when a proposal is awarded and the subcontractor reneges on their promise of cost share, the subcontract and possibly the whole proposal will need to be renegotiated.

5. It is possible that in rare cases no match can be identified. In such cases the proposal will not be submitted.

NOTE: Cost share arrangements must be completed at least 10 full business days before the sponsor’s deadline for proposal submission (https://sponsoredprograms.mst.edu/resources/policies/)
