

Office of the Vice Chancellor of Research

COST SHARE INFORMATION FOR PIs

1. S&T will not provide or support any matching/cost share for proposals where it is not explicitly required by the RFP.
2. In cases where the RFP explicitly requires cost share, the following process will be followed:
 - a. First, the time of the PIs will be used as match, assuming that such time is available and not already committed.
 - b. Next, the VCR will negotiate with the Dean(s) and Provost to identify any remaining necessary funds.
3. It is possible that for some proposals some of the match will come from industrial partners.
4. If the proposal has subcontractors, the subcontractors must commit in writing to their share of the cost share.
 - a. In cases when a proposal is awarded and the subcontractor reneges on their promise of cost share, the subcontract and possibly the whole proposal may need to be renegotiated.
5. It is possible that in rare cases no match can be identified. In such cases the proposal will not be submitted.

NOTE: Cost share arrangements must be completed at least 10 full business days before the sponsor's deadline for proposal submission (<https://sponsoredprograms.mst.edu/resources/policies/>)
